

Filip Jović

FRONTEND DEVELOPER

Profile

For the last few years, web development and programming have been my hobbies. As my abilities grew, I decided to rely on professional education at Comtrade Bootcamp. The Bootcamp final project I'm successfully passed with a grade of 9. Now I am looking for an internship in a professional environment that will shape me as a programmer.

Portfolio Projects

E-commerce website

Vanilla JavaScript project. CRUD app example with manipulation of json files and localStorage.

Features: CRUD with localStorage/sessionStorage, signUp/signIn, fetching products from json, cart bucket functionality for buying, user profile info card, basic routing etc.
